

Should you need to remove any of the existing draggable objects you have already added to your screen, you can easily do this by using the 'Manage Draggable Objects' panel.

To do this:

- 1) Select the question object so that its properties are displayed in the Properties Panel:

- 2) In the Properties Panel, click on the **Manage** button available next to the **Draggable objects** option:

- 3) You will see a dialogue box listing all the draggable objects, with all the drop targets listed under each object. Click on the red cross available next to the draggable object you need to remove from your question:

The dialogue box will close and the object you have deleted will disappear from the screen.
