

Adding a Glossary

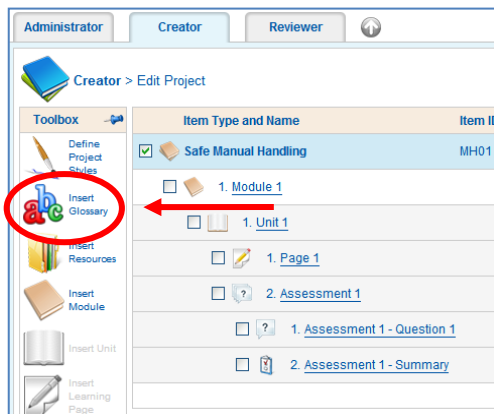

A glossary is a list of terms with the definitions which you can add to your projects. This list can include terms that are used within the course, or that may need an explanation for your intended learner audience.

To add a glossary to your project:

- 1) Place a tick in the Project selection box in the course structure:

- 2) Click on the **Insert Glossary** button in your **Toolbox**:

Your screen will refresh and you will see the new glossary item in your course structure:
