

Once you have created your multiple choice question with textfields, you will need to define which of the possible options is the correct answer.

To do this:

- 1) Select the question object so that its properties are displayed in the Properties Panel:

- 2) In the Properties Panel, open the pull-down menu called **Click here to set the correct answer(s)**:

- 3) The list displayed will say 'Incorrect' for each question choice added. Click this text (not the text displaying the actual answer) next to the correct answer to toggle it to 'Correct':
